

MirroFlex Accessories

GridMax™

GridMax is a patented, snap-on grid cover designed to make grid systems invisible. It is cost effective and doesn't rust or scratch. GridMax is sized to fit over 15/16" T-bar suspension grid systems.

Mains, tees, and moldings are necessary to cover the entire grid system. They are packaged together, to complete 100 square feet of ceiling, and sold separately to use as needed. See our finishes page for GridMax colors.

Applying GridMax Over T-bar
Suspension Grid System

GridMax
in Moonstone Copper

It's simple; measure the perimeter and calculate the square footage.

Hold-Down Clip System for Ceilings

We also offer an easy-to-install, hold-down clip system to help support lay-in ceiling tiles. This clip system attaches to the top of any existing grid to hold (low or high profile) lay-in ceiling tiles in place, preventing the tiles from flipping out of place from air leaks and creating a smooth visual.

MirroFlex Trim

MirroFlex Trim is available to join and finish MirroFlex Structures. Edge J-Trim, Divider Trim, Inside Corners and Outside Corners are available in 8' lengths and can be easily cut to size.

The Edge J-Trim simply slides onto the cut edge of the panel. Most installations use decorative wood or metal moldings, but if these elements are not used, MirroFlex Trim will finish the edges nicely. See our finishes page for trim colors.

MirroFlex Crown Molding

MirroFlex Crown Molding is a perfect transition from wall to ceiling and can be used with or without MirroFlex Structures Sheets. Crown Moldings are made from finger-jointed poplar and are 8' (2440mm) in length (UPS shippable).

Available in 9 finishes shown below that match MirroFlex finishes.
