NATURAL WOOD VENEER WALLCOVERING

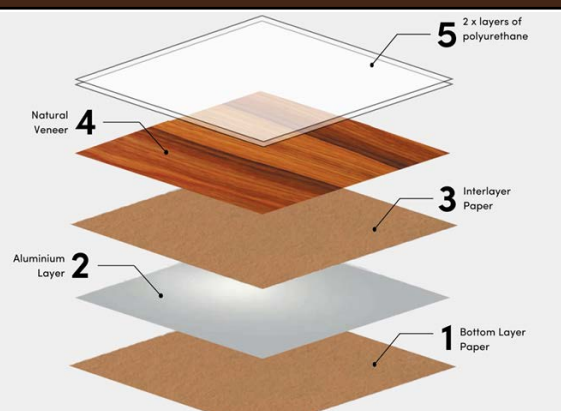

Over 100 Species. Pre-Finished. Crafted in Japan.

Your Most Trusted, Tested, Certified & Environmentally Friendly Sourced Wood Veneer Wallcovering in the World.

SanFoot is a natural wood veneer wallcovering with combined features unlike any other wallcovering. Handcrafted in the spirit of traditional Japanese craftsmanship, our ultra-thin veneer technique enhances log yield by approximately 300%, exemplifying refined innovation and sustainable design.

This results in a 30 - 70% cost savings compared to millwork.
